Re: O.N. 64069 U.S. Patent Application No. 12/267,714
From Provisional Appln. No. 61/002,571
MAGNETIC PORTABLE FIREARM OR SPORTING
INSTRUMENT HOLDING DEVICE

Dear Mike:

This letter is to advise you that your above-identified patent application will issue as U.S. Patent No. 8,403,278 on March 26, 2013.

When we receive your patent we will proofread it then forward it to your office. If the patent contains errors, we will prepare a request for a Certificate of Correction from the Patent Office, and submit a copy to you for your file.

All commercial specimens marketed after March 26, 2013, should bear the proper patent notice -- "Patent Number 8,403,278" or "Pat. No. 8,403,278." If there are differences in the product or process using the invention as it is now being marketed from the description given us at the time the patent application was filed on November 10, 2008, we recommend that you identify for us the differences so that we may advise you as to whether marking of the product with the patent number is proper.

Yours very truly,

Brian F. Schroeder
