Trash Bag CINCH™

Works on any size or shape container!

STOP TRASH BAG CAVE-INS™

Make any trash can more efficient

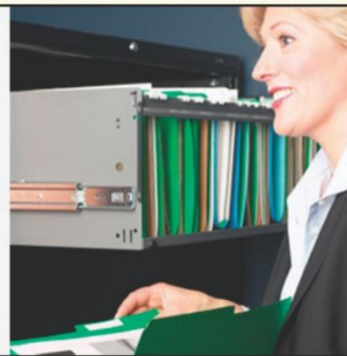

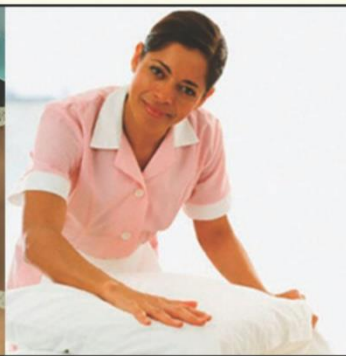

Our patented Cinches make your trash receptacle more efficient. Save time and money while improving the appearance of your facility. Eliminate the need for knots, prevent cave-ins, and save an average of five seconds per liner change. Available in a variety of colors, we have the right Cinch for any container. Our easy peel and stick application bonds the Cinch to virtually any surface. Cinches pay for themselves in 60 or fewer liner changes. Try our online Savings Calculator to see how much money your facility can save.
